

VANSHIKA AHUJA

Data Analyst

+91-8094847411 | vanshikaahuja54@gmail.com | LinkedIn | GitHub

Professional Summary

Results-driven Data Analyst with 1+ year of experience in data analysis, business intelligence, reporting, and data visualization. Currently pursuing a Master of Computer Applications (MCA) in Artificial Intelligence and Machine Learning from VIT Vellore. Proficient in Python, SQL, R, Power BI, Excel, and Power Query for data cleaning, transformation, validation, exploratory data analysis (EDA), and dashboard development. Experienced in analyzing large-scale datasets (500,000+ records), optimizing SQL queries, automating recurring reports, and translating raw data into actionable insights that improve accuracy and efficiency.

Technical Skills

- **Programming & Analytics:** Python (NumPy, Pandas, Matplotlib, Seaborn), SQL, R, Exploratory Data Analysis (EDA), Statistical Analysis
- **Data Preparation:** Data Cleaning, Preprocessing, Transformation, Validation, Wrangling, Outlier Analysis, Data Quality
- **Business Intelligence:** Power BI, Microsoft Excel, Power Query, Pivot Tables, KPI Reporting, Dashboard Development, Data Visualization
- **SQL & Databases:** MySQL, MongoDB, Joins, Aggregate Functions, Subqueries, CTEs, Window Functions, Query Optimization
- **Tools:** Jupyter Notebook, VS Code, Git, VBA, Data Modeling, Business Reporting
- **Languages:** English, Hindi

Professional Experience

Data Analyst – Pendot Creative Services

July 2025 – Present

Data Analytics & Business Intelligence

- Analyzed datasets containing 500,000+ records using Python, SQL, and Excel to identify trends, patterns, and actionable business insights.
- Performed data cleaning, preprocessing, transformation, and validation using Pandas, SQL, and Power Query, improving reporting accuracy by 30%.
- Developed interactive Power BI dashboards and KPI reports to monitor business performance and support data-driven decision-making, reducing manual reporting effort by 40%.
- Conducted Exploratory Data Analysis (EDA) using Python and R to identify trends, outliers, correlations, and key business insights.
- Wrote optimized SQL queries using joins, aggregate functions, subqueries, CTEs, and window functions for data extraction, reporting, and analysis.
- Automated recurring reports using Excel, Power Query, and VBA, reducing report generation time by 35% and improving reporting efficiency.
- Collaborated with cross-functional stakeholders to gather reporting requirements, define business objectives, and deliver analytical solutions aligned with business needs.
- Presented analytical findings through Power BI dashboards, KPI reports, charts, and data visualizations to support strategic decision-making.

Key Achievements

- Improved reporting accuracy by 30% through effective data cleaning, transformation, and validation.
- Reduced manual reporting effort by 40% by building interactive Power BI dashboards and KPI reports.
- Reduced report generation time by 35% through Excel, Power Query, and VBA automation.
- Delivered actionable business insights through advanced data visualization, statistical analysis, and exploratory data analysis.

Education

Master of Computer Applications (MCA) – Artificial Intelligence & Machine Learning

VIT Vellore

Currently Pursuing

Master of Science (M.Sc.) in Mathematics

Maharaja Ganga Singh University

Bachelor of Science (B.Sc.)

Maharaja Ganga Singh University
